# **Investment Proposals and Financing Of the 2007 CGIAR Research Agenda**

## **Summary**

**October 2006**

## Introduction

The 2007 financial proposals were submitted by the Centers and Challenge Programs (CPs) as part of the 2007-2009 Medium-Term Plans (MTPs), and summarized by a joint collaboration team of IRRI and the CGIAR Secretariat. [The programmatic aspect of the proposals was reviewed separately by the Science Council]. Following is a summary of the document, *"Investment Proposals and Financing of the 2007 CGIAR Research Agenda"*, for ExCo's consideration and endorsement to AGM06.

## Summary of the 2007 Proposals

**Investment:** The Centers and Challenge Programs have proposed an aggregate investment of \$513 million for 2007. This is \$7 million (1 percent) higher than the current estimate for 2006 and \$61 million (13 percent) over the actual 2005 level.

Included in the 2007 proposals is \$1 million for the four CPs, compared with \$35 million in 2005 and \$55 million estimated for 2006. Of the 2007 proposed CP investments, \$27 million will be implemented by Centers while \$34 million will be implemented by CGIAR Partners.

**Financing:** The \$513 million in planned aggregate investment is to be financed by Investor grants of \$470 million, \$15 million in Center earned income and \$28 million in other sources and reserves.

Table 1 below summarizes the 2007 CGIAR Financing Plan and compares it with the 2006 current estimate and 2005 actual.

<sup>2/</sup>This excludes linkage projects whose activities are highly complementary to HarvestPlus goals, principles, methods and programs which expand the scope and reach of HarvestPlus "core" activities, but which are administered independently of HarvestPlus. These projects are estimated at \$2.6 million annually.

Details of the financing plan at the Center and CP levels are shown in table 3.

Investor grants totaling \$470 million represent the Centers' best estimate at this point in time of the likely support they can reasonably expect in 2007. The projected funding levels are based on confirmed and highly probable sources of forecasted grants.<sup>3</sup>

**Highlights of Member Support:**

The top 5 contributors projected for 2007 compared with 2005 actual are shown in Table 4.

<sup>3</sup> About \$17 million of the forecasted grants are under negotiation. The bulk is concentrated at CIMMYT (\$6.9 million) and IFPRI (\$6 million).

### Allocation of 2007 Investment

Of the 2007 investment, 48 percent is projected to be allocated to Sub-Saharan Africa, compared to the 2006 estimate and 2005 actual of 46 percent. Allocation by CGIAR Priority Area is illustrated in table 5.<sup>4</sup>

<sup>4</sup> More detailed allocation of the 2007 projected investment is available in the CGIAR Financial Information System.

<sup>5</sup> As the System Priorities were approved only at AGM05, the actual 2005 CGIAR investment was allocated in terms of output.
